BRIEF MEMO

Outlining the principal features of

"The Commercial & Financial Chronicle"

The CHRONICLE is published on Monday and Thursday of each week. Thursday's paper presents a world wide coverage of the current week's news in all departments of the financial and business world with timely editorials on outstanding subjects of a financial, business and political nature having an important bearing on business and your personal stock and bond investments.

The CHRONICLE is recognized as the outstanding financial authority the world over and is considered the representative organ of the Corporations, Banking Institutions, Bond Houses, Stock Exchange Firms, Statisticians, Private Investors and Traders in stocks and bonds throughout the United States. There is no similar financial or statistical journal published in the United States or Europe which covers the Railroad, Industrial, Public Utility and Corporation fields as completely as The CHRONICLE.

We feel that we are justified in saying that The CHRONICLE stands without a peer in its field because it is so broad in scope and for the reason it covers all the problems and interests of the business, banking and financial worlds in one publication. It goes without saying that The CHRONICLE will help to keep you posted regarding the multitude of changes occurring daily in the investment security markets, world affairs, Government relations, Congressional legislation, labor, taxation and transportation that are affecting your individual welfare and your business.

Our editorial opinion, epitomized in each Thursday's Issue under "The Financial Situation" column, has attained world wide acceptance for accuracy, authority, and sound business interpretation. Another Thursday feature is Walter Whyte's weekly stock market column entitled "Tomorrow's Markets, Walter Whyte says . . .".

In Monday's Issue, The CHRONICLE devotes no less than twenty-one pages of space to a High and Low price record of the stocks and bonds traded in on the New York Stock Exchange and the New York Curb Exchange. The Monday Issue also includes the High and Low records for leading stock exchanges in Baltimore, Boston, Chicago, Cincinnati, Cleveland, Detroit, Los Angeles, Philadelphia, Pittsburgh, St. Louis, Montreal, Toronto, as well as records for "Over the Counter" markets.

In no other financial medium will you find such an encyclopedic array of "Corporation and Investment News" on Public Utilities, Railroad, Industrials, Insurance and other Corporations which appear regularly in the Monday Issue of The CHRONICLE. In addition to these regular features, complete coverage of Municipal News, Banking and other statistics is included in every Monday Issue.

Measured by its informative value to you and to your business, we believe that you will find that the subscription rate of $26.00 per annum for the 104 semi-weekly issues (averaging over 5,000 pages yearly) to be the most economical financial service obtainable.

May we enter your subscription to The CHRONICLE? A subscription order, addressed and ready to mail, is attached for your convenience.

DAILY RATES OF FOREIGN EXCHANGE

The state of upsetment in world affairs makes it impossible to obtain quotations for a number of the countries formerly carried in our records. We have, therefore, revised the list to eliminate columns for currencies not now quoted and to add columns giving greater data on Western Hemisphere countries which now are growing in importance, so far as our world commerce is concerned. We hope to be able to continue the list as now presented for the future, and will of course resume quotations for other countries when world conditions return to a normal state.

New York Stock Exchange - - Bonds

Monthly and Yearly Record

RANGE OF BOND PRICES DURING NOVEMBER

	Bond Sales	1944	1943	*Bond Sales*	1944	1943
November		$196,863,700	$187,631,000	Jan. 1 to Nov. 30	$2,428,171,700	$3,030,832,075

NOTICE—Cash and deferred delivery sales are disregarded in the month's range unless they are the only transaction of the month, and when selling outside of the regular monthly range are shown in a footnote in the month in which they occur. No account is taken of such sales in computing the range for the year.

The tables on pages 3 to 26 furnish a complete record of the transactions on the New York Stock Exchange during November, 1944, and the range since Jan. 1. They need no extended introduction, as they are self-explanatory. The tables embrace every security dealt in on the Exchange. We give bonds first, using the classification adopted in the official list. The italic letters in the column headed *"Interest Period"* indicate in each case the month when the bonds mature.

In accordance with the rule adopted by the New York Stock Exchange in 1909, all quotations for interest-paying bonds are at a price to which accrued interest must be added. The exceptions to the rule are income bonds and bonds on which interest is in default. This method of quoting bonds became effective Jan. 2, 1909. Quotations after decimal point represent one or more 32nds of a point.

General Quotations

OF BONDS AND STOCKS

In the earlier part of this publication complete records of the dealings on the leading stock exchanges of the country, for the latest month and for the calendar year to date, are furnished. In this department of General Quotations we combine in one comprehensive whole, securities of all classes and descriptions, not only those dealt in on the exchanges, but also leading unlisted and inactive securities. The following is an index to the different classes of securities quoted:

	Page
Exchange Seats	67
Federal Land Bank Bonds	78
Foreign Government Bonds	79
Industrial Bonds	65

Insurance Stocks	69

Railroad Bonds	51
Railroad Stocks	55
Real Estate Bonds	68
Real Estate Trust Securities	70
Textile Stocks	70
United States Government Securities	78
United States Territorial Bonds	78

Quotations for all securities are as near as possible for the *closing day of the month preceding the date of issue.*

The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. In the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.

Quotations for equipment bonds are based on average maturities.

Quotations for guaranteed stocks are "and dividend"; that is, the accrued dividend must be paid in addition to the price.

It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.

The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "gtd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "opt" for optional.

The italic type in the letters showing the interest period indicates the *month* when the bonds mature.

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds

Industrial and Miscellaneous Securities

Under the heading "Industrial and Miscellaneous Securities" we include all issues which *do not* appear under the previous three headings, namely "Railroads," "Investing Companies" and "Public Utilities." In the case of stocks, however, we put "Textile Manufacturing," "Insurance," "Mining," "Real Estate and Land," "Title Guarantee and Safe Deposit Companies" under separate heads, then follow with the rest of the "Industrial and Miscellaneous."

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds
Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue

United States and Municipal Bonds

The custom in reporting prices for State and municipal securities is to quote them on the basis of the return the bonds yield per annum. Therefore, in furnishing the prices below, it will be found that for the single maturity bond a bid and asked quotation is published—either actual figures or on a percentage basis. In furnishing prices for the serial bonds, however, we endeavor to obtain the yield basis for the varying maturities. For instance, if a certain bond in our list matures from 1944 to 1951 and is quoted 0.50 to 3.00%—this would indicate that the earliest maturity yields 0.50% and the latter maturity is yielding 3.00%.

Therefore, in the following list, it must be remembered the word "to" indicates that the figures shown are the yield basis for various maturities; all other figures are bid and asked prices.

Quotations for all securities are as near as possible for the closing day of the month preceding the date of issue.
